

**14/07/2006**

Please note there will be a limited number of changes to the MINI range from September production onwards (production week 36). This includes a number of options being permanently deleted and some being re-introduced in December 2006 for MINI Convertible. These details are explained below.

Option Code	Option Description	Deleted For Models	Notes
AHTN	Cloth Octagon - Red/Black	All Hatch Models All Convertible Models	Will be available again for MINI Convertible from December 2006.
FDTB	Cloth/Leather Octagon - Red/Red	All Hatch Models	
T6LP	Leather Gravity - Lapis Blue	MINI Cooper S Hatch	
325	Rear Spoiler	MINI One Hatch	Remains standard on ZM01, becomes standard on RC32.
420	Tinted Windows	All Hatch Models	
477	Interior Trim - Wood Effect	All Hatch Models All Convertible Models	Will be available again for MINI Convertible from December 2006.
620	Voice Control	All Hatch Models All Convertible Models	Will be available again for MINI Convertible from December 2006.
651	MINI Disc Player	All Hatch Models All Convertible Models	
657	Radio BOOST - Cassette	All Hatch Models All Convertible Models	Single CD becomes a non deletable 100% option.
672	6-Disc CD Changer	All Hatch Models All Convertible Models	Will be available again for MINI Convertible from December 2006.

In addition to the above deletions/disruptions, all MINI Convertible (R52) will come as standard with an Aux-In connector socket in the glovebox. Please note this is a standard Aux-In socket which will allow i-pods etc to be connected to the car but they can not be controlled through the multi-function steering wheel if fitted.
