

## AFTERSALES BUSINESS DEVELOPMENT & MARKETING MINI DEALER BULLETIN

**SUBJECT: JOHN COOPER WORKS TUNING KIT MY2005**

Please be informed that the currently available JCW Tuning kits for the MINI Cooper and Cooper S cannot be installed on MY05 Cars. The current kits are not homologated for the 2005MY cars; they can still be installed on all MY04 or older cars.

We are going to offer two new kits by the end of September for the MY05 cars. We will inform you in early September about the new part numbers.

Very truly yours,
